

CAPABILITY STATEMENT

Prism Lighting Services, LLC

Illuminating Safety. Empowering Operations.

COMPANY OVERVIEW >

Prism Lighting Services is a U.S.-based provider of advanced lighting solutions engineered for nighttime safety, maintenance, and emergency operations. Our flagship product - the patented **Prism Inflatable Light**—is a portable, high-output lighting system designed to reduce setup time, enhance visibility & improve operational efficiency across federal, state & municipal agencies.

CORE COMPETENCIES >

- Rapid-deployment inflatable lighting systems for nighttime field safety & operational visibility
- Energy-efficient LED technology with wide-area illumination (17000 sq. feet)
- Weather-resistant and rugged design for harsh environments
- Low-maintenance, cost-effective lighting for field operations
- Single-person quick-install design forenhanced operational efficiency
- Ideal for disaster response, military logistics, construction and public safety

PAST PERFORMANCE >

- Supported municipal emergency response teams with rapid lighting during hurricane recovery
- Deployed in transportation maintenance zones to improve worker safety and visibility
- Used by utility companies for nighttime infrastructure repairs

DIFFERENTIATORS >

- Patented technology: Exclusive inflatable design for fast setup and takedown
- Lightweight and compact: Easily transported and deployed by one person
- Portable design with minimal footprint—ideal for remote or hard-to-access locations
- Bilingual support and culturally adapted outreach for international and border-zone deployments
- Proven resilience in hurricane recovery zones and transportation work areas
