

PRISM HOLDINGS, LLC

IFR 700

Firefighting Robot

Engineered with an optimal power-to-weight ratio, the IFR-700 delivers performance that rivals far larger machines. Its design emphasizes mobility and resilience, allowing it to operate effectively where heavier systems face limitations. This unique balance makes the IFR-700 a decisive advantage in high-risk firefighting scenarios.

Powerful

Optimal Power-to-Weight Ratio

Mobile

Superior All Terrain Mobility

Resilient

Resilient Design

PRISM HOLDINGS, LLC

IFR 700

Firefighting Robot

Additional Attachment (Accessory)

Piercing Nozzle with water mist

✓ Key Features

- ◆ Remote Controlled
- ◆ Rapid Deployment
- ◆ Water / Foam Jet
- ◆ Versatile Use
- ◆ Safe Operations

Technical Specifications

Flow Rate & Pressure

Optimal Power-to-Weight Ratio

Vision & Targeting

Dual PTZ Thermal & Optical Cameras

Mobility

Heavy-Duty Crawler Tracks
30° Incline Climb

Range

Jet Range
Upto 75 m

Dimensions & Weight

840x750x77mm
Weight : 160 Kg

Build & Protection

IP69 Protection
Durable, Heat-Resistant

Control & Runtime

800m Remote Range 12 hr.
Continuous Monitor Runtime
