

S-CUT EMERGENCY CUTTING TOOL

Key Features

- S-CUT QE (Quick & Easy) is developed by rescue staff and is used by rescue and ambulance services all over the world.
- An S-CUT QE provides a fast and safe way to remove clothes and boots, to cut car seat belts and more in accident situations.
- The disposable S-CUT QE has 5 cutting edges.
- Cut replaces scissors, knives, rescue hooks, seat belt cutters, and similar tools.
- S-Cut is designed for optimal ergonomics and provides an excellent grip. The S-Cut is used with a pulling action requiring minimal effort.
- The circular cutting blade is recessed in order to protect the patient and user from injury. The cutting blade can be easily replaced without the need for any additional tools.
